Possible Extended Billing Period

With the recent holiday season, our meter reading schedule was affected. Some billing periods may have been extended to up to 35 days. We typically like to keep the bill period around 30 days. Longer billing periods would contribute to a higher than average bill amount.

Monthly, the customer shall be billed the lesser of 1) the amount of the Energy Limiter or 2) the amount for the Energy Charge plus the amount of the Demand Charge.
